

Approximate time of assembly is 15 minutes.

Make sure you have these items for this fixture installation:

**Required Tools:**

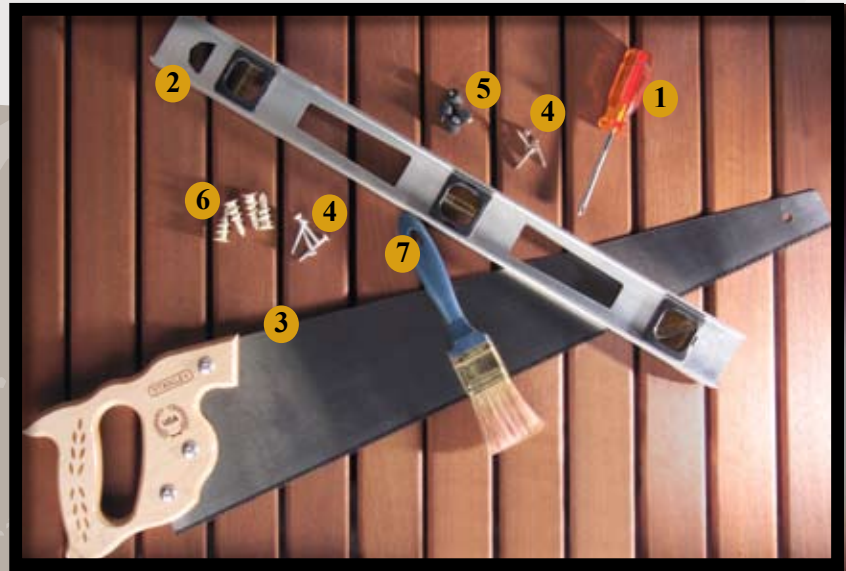

1. Phillips Screwdriver
2. Level
3. Saw

**Hardware included:**

4. Screws
5. Keyhole Location Indicators
6. Drywall Anchors

**Optional Tools:**

7. Paint Brush

**Cornice Box Components**

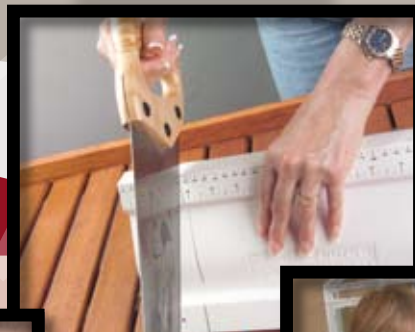

\*\* Note: Medallion is only required if overall desired width extends beyond available Cornice Molding length. However, Medallion can also be used to achieve an aesthetic design for your Cornice Box.

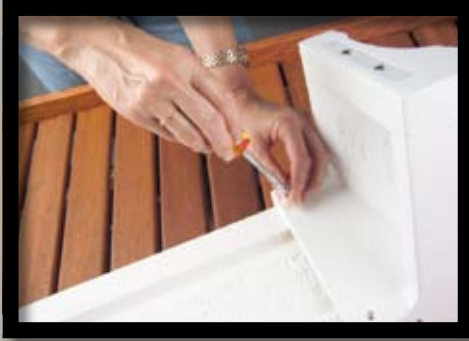

**Step 1: Measure**

**Step 2: Cut**

### Step 3: Assemble

To help easily locate the position of the Mounting Screws and Drywall Anchors used in installing the Cornice Box to the wall, four Keyhole Location Indicators have been provided.

### Step 4: Mount
